FOR EUROPE — SOCIAL JUSTICE, SOLIDARITY, UNITY!

The ETF has a new President!

Frank Moreels, Chairman of the Belgian transport union BTB has been elected as the new President of the ETF.

On accepting the role Moreels addressed the congress saying: *"I am happy and humble to have been given the opportunity to take up the position of ETF president. Humble because the job at hand is very complex. But there is an alternative for social dumping and the race to the bottom. Strong unions can stop the exploitation of workers and unfair competition."*

#ETF2017 Statement of the day

"Models based around the technological revolution include a certain amount of exploitation of workers. The situation in the transport sector is emblematic of that."

Christophe Degryse, European Trade Union Institute
